

Daniel Kuhman

Analytics & Data Science

I'm a trained research scientist with a strong background in data analytics and data science. I help companies leverage data to build impactful products and improve business decision-making processes.

Skills

- Languages: SQL, R, Python
 - Google Cloud Platform, BigQuery, Composer, dbt
 - BI Tools: Looker, Cluvio, Tableau, Google Analytics
 - Written and verbal communication
 - Self-starter, independent, fast learner
-

Experience

Strike (Zap Solutions Inc.) / Data Analyst

April 2022 - June 2023, Remote

I worked across multiple teams, including Compliance, Fraud Ops, Trust & Safety, and Customer Service. I performed a variety of data-related tasks, including basic data exploration, data analysis, data visualization, and advanced data modeling.

City Enterprises / Director of Data Science

April 2021 - April 2022, Murfreesboro TN

Leveraging both internal and external data streams, I helped optimize car dealership inventory across multiple dealerships and created models to forecast sales performance of individual vehicles.

University of Alabama Birmingham / Research Assistant

August 2017 - April 2021, Birmingham AL

I worked in the UAB Biomechanics Lab while completing my doctoral studies and dissertation. I collected and processed data, conducted statistical analysis on large, complex data sets, and presented and published findings.

Education

University of Alabama Birmingham / Ph.D. Rehabilitation Science

August 2017 - August 2021, Birmingham AL

East Carolina University / M.S. Biomechanics

August 2015 - May 2017, Greenville NC

University of Memphis / B.S.Ed. Health & Human Performance

August 2011 - May 2015, Memphis TN
